Dear Stitchers,

All of our designs are coded for DMC embroidery floss. Special care has been taken to offer graphs that are clear and accurate; however, no warranties are given nor are results guaranteed.

Look for other "Seens" from Hickory Hollow in your favorite needlework shop,
or write to us directly.

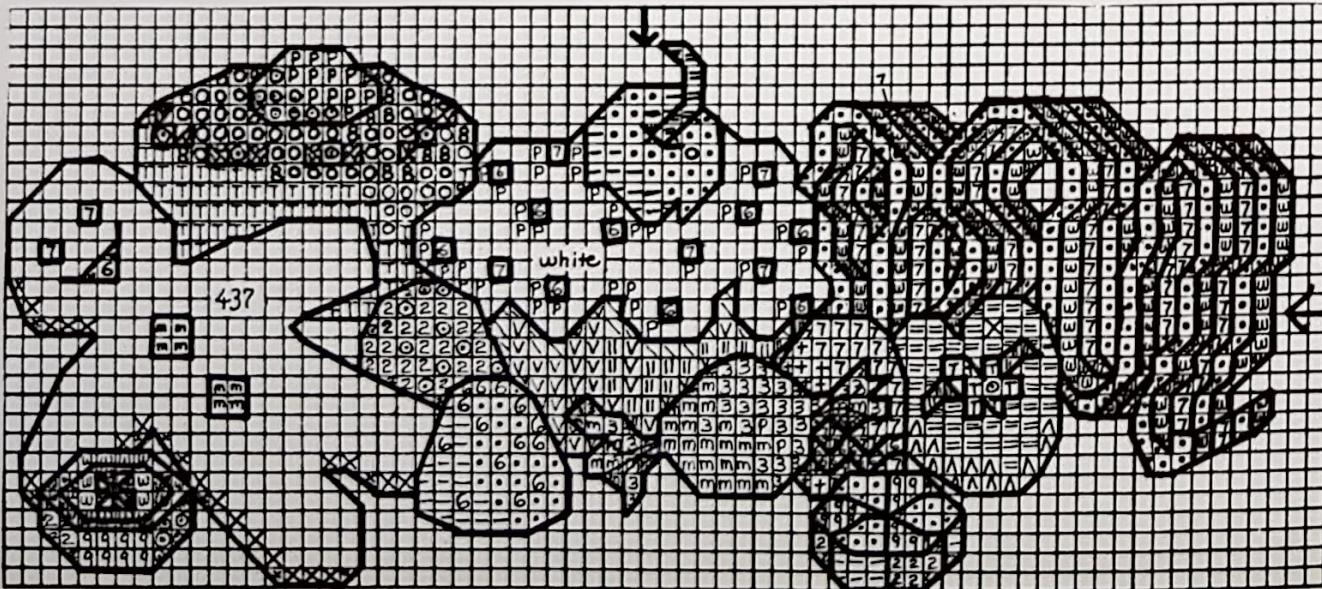

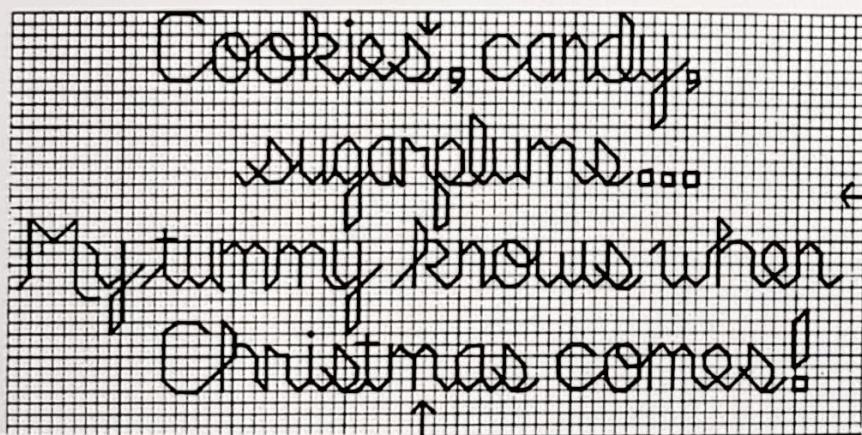

Sincerely,
De Selby

Stitch with three strands and backstitch with one on a fingertip towel and a six inch hoop. There are four floss colors showing an additional color added with it. These are colors of metallic blending filament that are optional, and if used should be added as one strand to the three strands of floss. Backstitch the poem in 699 except the word, "Christmas" (it is in 321). Backstitch the yummies in 801 except the ribbon candy (it is also 321). The small flower on the yellow and white candy disk is 793.

"Checkerboard with Hearts":

120 x 198

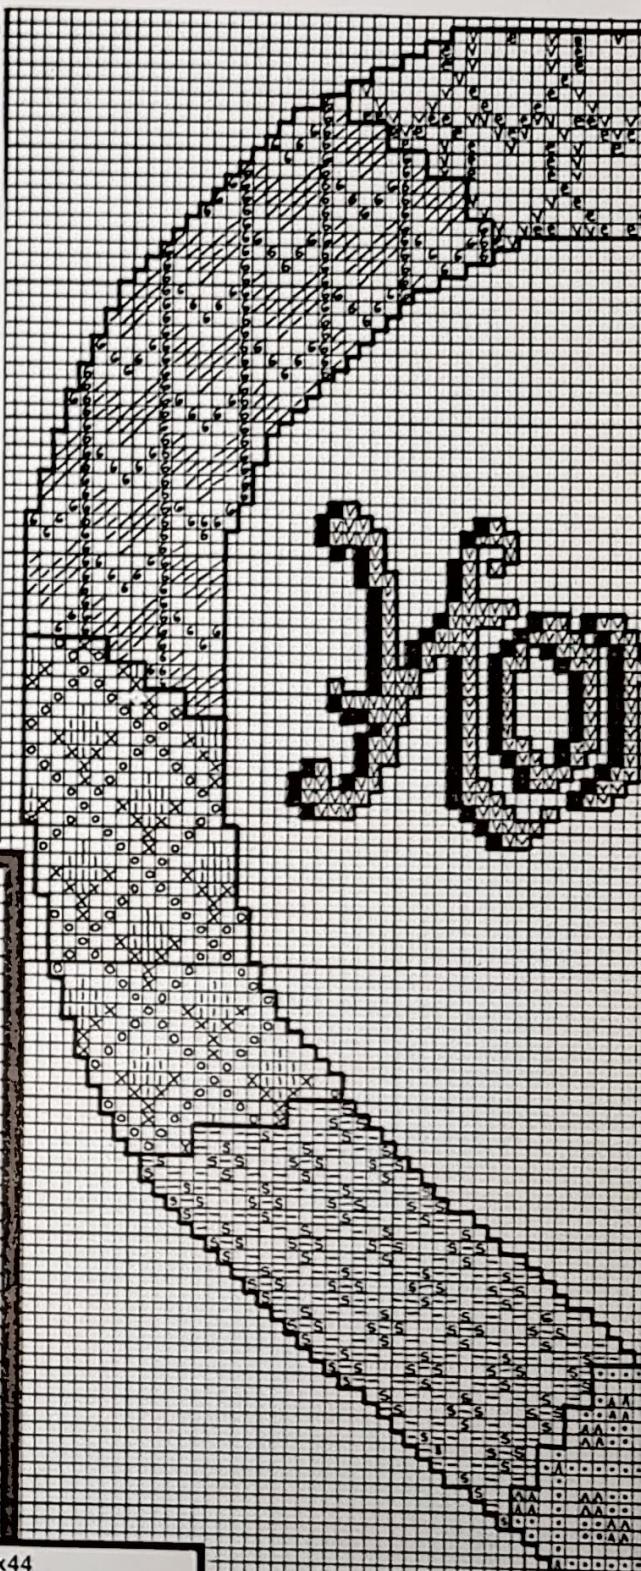

Green/Rose: On "Pioneer" tablecloth, stitch with three strands over two squares. Purchase three skeins of 309 and 501 and two of 503.

To stitch this project, center the heart motif at the top of the checkerboard. When the checkerboard has been stitched, repeat the motif at the bottom upside down. The graph shows two rows of the checkerboard. Repeat three more times to make a game board 8 x 8 squares. For checkers, we drilled small holes in painted hearts. When the game is over, just string the hearts on ribbon and tie to the tablecloth or hang on the frame pegs.
